-

8pm 147.390+ 88.5 PL FM, Tulsa Area ARES (Amateur Radio Emergency Services) Net, every Thursday night (the first three Thursdays of the month are on 147.390, the fourth, (if that month has a fifth Thursday) are on the TARC UHF Superlink system.

* See W5IAS.com for the TARC Superlink frequency available in your area.

Echolink is also available during the net at "KC5RBH-L". (Echolink NOT available when the net is on the TARC Superlink System)

-

8pm TARC 70cm Superlink System, Tulsa Area ARES (Amateur Radio Emergency Services) Net

The weekly net is your opportunity to participate in our emergency communications preparedness, learn information of interest to ham radio, and opportunities for public service. We encourage check-ins from everyone...even first time check-ins are welcome.

Since this is the 4th Thursday of the month, and sometimes 5th Thursday, if it occurs in that month, is always on the TARC Link System, instead of 147.390+ 88.5PL, which hosts this Net on the 1st, 2nd, and 3rd Thursdays of the month.

TARC Superlink System:

All repeaters use an 88.5PL unless otherwise listed.

Tulsa 443.850+ FM
Mannford 442.000+ FM
